

PROFILE

UX/UI designer and front-end developer with a B.A. in Digital Design and experience designing responsive interfaces and apps. Trilingual in English (C2), Swedish (C2) and Arabic (C1), with a multicultural background across Qatar, Lebanon, and Sweden that brings several perspectives to how I approach design.

WORK EXPERIENCE

FREELANCE

JANUARY 2025 - CURRENT

- **Etsy shop:** Designed and sold 30+ digital wedding and birthday invitation templates.
- **Feel Great distributor website:** Designed and built a multi-page website that organized scattered product and distributor information into a clear, structured site, following the brand's colors and identity. Delivered in 1 month.
- **Baked Wholesale:** Created a visual identity for a brand. Logo, color palette, and typography, shaped through client discussions around their vision and the feeling they wanted the brand to convey. Delivered in 2 weeks.

UX/UI DESIGN INTERN

NOVEMBER 2025 - FEBRUARY 2026

WebVade | UAE (Remote)

- Redesigned a client's website over 1 month across 2 revision cycles, iterating on user flows and layout based on feedback.
- Built a design-system component library of 16 reusable UI elements aligned with the client's brand guidelines.
- Collaborated with a developer to optimize structure and hand off design-ready work.

CUSTOMER SERVICE & ADMINISTRATOR

JUNE 2022 - DECEMBER 2023

Mekonomen Bilverkstad | Tyringe, Sweden

- Served a high volume of 540+ customers over the year, across phone, email, and in-person, often managing the desk and phone simultaneously.
- Converted 40+ walk-in customers into recurring tire storage (däckhotell) subscribers within 2 months.
- Gave customers fast, clear help in a fast-paced environment, creating trust and returning customers.
- Kept bookings and orders organized so the workshop's days ran without clashes.
- Managed phone and desk queues with no queue system, using a manual tracking method I set up
- Acted as the link between 3 technicians and suppliers, cutting wait times on parts and updates.

PROJECTS

- **The House** - Solo discursive game on gambling harm, built in GDevelop. **Played 140+ times on the GDevelop community.** Awarded highest grade (VG)
- **NMOQ Tour** - concept museum navigation app grounded in real visitor research.
- **Turista** - AR concept app for Swedish cultural heritage (team of 3); led evaluation and built the prototype. (VG)
